

T. Magalhães | Curriculum Vitae

✉ tiago.magalhaes@ufjf.br • 🌐 ufjf.br/tiago_magalhaes

Current Affiliation

Institute of Exact Sciences, Federal University of Juiz de Fora

Assistant Professor, Brazil

Acting Chair, Department of Statistics

Associate Chair, Department of Statistics

Juiz de Fora

Dec 2017–Present

Apr 2025

Mar 2020–Mar 2024

Education

Institute of Mathematics and Statistics, University of São Paulo

PhD in Statistics, Brazil

São Paulo

2016

Institute of Mathematics and Statistics, University of São Paulo

MS in Statistics, Brazil

São Paulo

2011

Science Center, Federal University of Ceará

BA, magna cum laude, in Statistics, Brazil

Fortaleza

2008

Languages

Portuguese: Mothertongue

English: Advanced

French: Intermediate

Spanish: Basic

Research Interests

- Applied Statistics
- Regression models
- Statistical inference

Publications

Selected

2025: Inferential and predictive procedures for inverse gamma regression model. *Journal of Statistical Computation and Simulation* 95 (11), 2327–2342. (with D. Gallardo and M. Diniz)

2024: Bartlett corrections for zero-adjusted generalized linear models. *Statistical Papers* 65 (4), 2191–2209. (with G. Pereira, D. Botter and M. Sandoval)

2023: Improved inference for MCP-Mod approach using time-to-event endpoints with small sample sizes. *Pharmaceutical Statistics* 22 (5), 760–772. (with M. Diniz and D. Gallardo)

2022: A class of categorization methods for credit scoring models. *European Journal of Operational Research* 296 (1), 323–331. (with D. Silva and G. Pereira)

2021: A general expression for second-order covariance matrices - an application to dispersion models. *Brazilian Journal of Probability and Statistics* 35 (1), 37–49. (with D. Botter and M. Sandoval)

Peer-Reviewed

2026: Power properties of classical test statistics in Weibull regression models with censoring and their applications to sample size calculation. *AIMS Mathematics* 11 (5), 12825–12865. (with Y. Gómez, M. Diniz, O. Venegas and D. Gallardo)

2025: Inferential and predictive procedures for inverse gamma regression model. *Journal of Statistical Computation and Simulation* 95 (11), 2327–2342. (with D. Gallardo and M. Diniz)

2025: Modeling PM2.5 Pollution Using a Truncated Positive Student's-t Distribution: A Case Study in Chile. *Mathematics* 13 (23), 3838. (With H. Gómez, K. Santoro, D. Gallardo and P. Leal)

2024: Bartlett corrections for zero-adjusted generalized linear models. *Statistical Papers* 65 (4), 2191–2209. (with G. Pereira, D. Botter and M. Sandoval)

2024: Some asymptotic inferential aspects of the Kumaraswamy distribution. *Communications in Statistics - Theory and Methods* 53 (17), 6160–6176. (with H. Carneiro, M. Sandoval and D. Botter)

2024: Teaching the person-centered clinical method in undergraduate medicine: A narrative review. *Revista Brasileira de Educação Médica* 48 (04). (with J. Dos Santos Yogui and D. Bivanco)

2024: Myosteatorsis as a risk factor for hepatocellular carcinoma recurrence after deceased donor liver transplantation. *Medical Research Archives* 12 (8). (with R. Bezerra, R. Pinheiro, A. Fortunato, L. Tambelini, G. Conti, M. Aguiar, V. Rocha-Santos, D. Waisberg, M. Rocha, G. Cerri, L. D'Albuquerque and W. Andraus)

2024: A new generalization of the truncated gumbel distribution with quantile regression and applications. *Mathematics* 12 (11), 1762. (with H. Gómez, K. Santoro, D. Ayma, I. Cortés and D. Gallardo)

2024: Power truncated positive normal distribution: a quantile regression approach applied to health databases. *Axioms* 13 (12), 811. (with K. Santoro, H. Gómez, I. Cortés and D. Gallardo)

2024: The impact of the sample size on the reliability of non-parametric statistical tests: a monte carlo simulation approach. *Principia: Caminhos Da Iniciação Científica* 24. (In Portuguese; with G. Mendes)

2023: Improved inference for MCP-Mod approach using time-to-event endpoints with small sample sizes. *Pharmaceutical Statistics* 22 (5), 760–772. (with M. Diniz and D. Gallardo)

2023: Improved gradient statistic in heteroskedastic generalized linear models. *Journal of Statistical Computation and Simulation* 93 (12), 2052–2066. (with F. Barros, D. Botter and M. Sandoval)

2022: A bimodal model based on truncation positive normal with application to height data. *Symmetry* 14 (4), 665. (with H. Gómez, W. Caimanque, Y. Gómez, M. Concha and D. Gallardo)

2022: A class of categorization methods for credit scoring models. *European Journal of Operational Research* 296 (1), 323–331. (with D. Silva and G. Pereira)

2021: An asymmetric bimodal double regression model. *Symmetry* 13 (12), 2279. (with Y. Gómez, D. Gallardo and O. Venegas)

2021: Improved point estimation for inverse gamma regression models. *Journal of Statistical Computation and Simulation* 91 (12), 2444–2456. (with D. Gallardo and M. Bourguignon)

2021: A general expression for second-order covariance matrices - an application to dispersion

models. *Brazilian Journal of Probability and Statistics* 35 (1), 37–49. (with D. Botter and M. Sandoval)

2020: Bartlett and Bartlett-type corrections for censored data from a Weibull distribution. *SORT - Statistics and Operations Research Transactions* 44 (1), 127–140. (with D. Gallardo)

2020: Bias reduction for the Marshall-Olkin extended family of distributions with application to an airplane's air conditioning system and precipitation data. *Symmetry* 12 (5), 851. (with Y. Gómez, D. Gallardo and O. Venegas)

2019: Skewness of maximum likelihood estimators in the Weibull censored data. *Symmetry* 11 (11), 1351. (with D. Gallardo and H. Gómez)

2019: Skewness of maximum likelihood estimators in the varying dispersion beta regression model. *Communications in Statistics - Theory and Methods* 48 (17), 4250–4260. (with D. Botter, M. Sandoval, G. Pereira and G. Cordeiro)

2018: Propensity score matching comparison of laparoscopic versus open surgery for rectal cancer in middle-income country: short-term outcomes and cost analysis. *ClinicoEconomics and Outcomes Research* 10, 521–527. (with D. Tayar, U. Ribeiro-Jr, I. Cecconello, C. Simões and J. Auler-Jr)

2017: Corrigendum to: "Covariance matrix formula for generalized linear models with unknown dispersion" by G. M. Cordeiro, L. P. Barroso and D. A. Botter [Communications in Statistics - Theory and Methods (2006) 35(1), 113–120]. *Communications in Statistics - Theory and Methods* 46 (21), 10702–10704. (with D. Botter and M. Sandoval)

2013: Asymptotic skewness for the beta regression model. *Statistics and Probability Letters* 83 (10), 2236–2241. (with D. Botter and M. Sandoval)

Book chapters and magazines.....

2025: Challenges and Benefits of Interdisciplinary Approaches in Undergraduate Research: Case Studies from ICE-UFJF. In Kistemann, M., Almeida, B., and Delgado, I. (eds) *Research at the Institute of Exact Sciences, Engineering, and Architecture, Federal University of Juiz de Fora*. Akademy, 111–122. (In Portuguese; with G. Mendes)

2024: International Dairy Federation Framework in Brazil - An Overview of the Brazilian Committee in the Global Context. In Costa, F., Húngaro, H., Silva, J., Rodarte, M., and Silva, P. (eds) *Management, Quality, and Technological Innovations: Academic Contributions in Milk and Dairy Science and Technology*. Editar, 205–220. (In Portuguese; with I. Silva, M. Alvarenga and P. Silva)

2020: Normality: Assumptions, Transformations and Outliers. In Lunardi, A. (eds) *Manual of clinical research applied to Health*. Blucher, 349–364. (In Portuguese; with M. Diniz)

2020: Logistic regression and related methods. In Piantadosi, S. and Meinert, C. (eds) *Principles and practice of clinical trials*. Springer, 1–23. (with M. Diniz)

2016: On the performance of VWAP execution algorithms. *Global Trading Q4* (60), 43–45. (with H. Takada)

Manuscripts in Preparation and Submitted

- Correlation between the mesiodistal size of upper and lower incisors: a way of prediction. *Submitted to Dental Press Journal of Orthodontics*. (with L. Agra, J. Pereira, G. Maximiano, L. Elias, M. Campos and R. Vitral)

- Determinants of acute kidney injury development and progression in patients with decompensated cirrhosis admitted with bacterial infections. (with R. Ximenes, D. Mazo, B. Migita, L. Mendes, A. Martinelli, R. Araújo, F. Souza, M. Álvares-da-Silva, D. Barbeiro, C. Helou, H. Souza, M. Gouvea, R. Greca, N. Vaz, P. Zitelli, M. Diniz, F. Carrilho, G. Garcia-Tsao and A. Farias)
- Likelihood-based statistics for enhancing inference and prediction in inverse gamma regression models. (with D. Gallardo and R. Izbicki)
- Patient-centred care during medical internship: a longitudinal study of the humanisation of care in undergraduate medical education. (with J. Yogui and D. Bivanco-Lima)
- Understanding consumers' perceptions and trust in vegan certification: a mixed-methods study among vegetarians and vegans in Brazil. *Submitted to Food Science and Technology*. (with N. Lage, V. Nakajima and J. Vilar)

Controle Estatístico de Qualidade [Statistical Quality Control]

Institute of Mathematics and Statistics, University of São Paulo

São Paulo

Lecturer, Brazil

Jan 2013

Uma Introdução à Análise Exploratória de Dados e Métodos Estatísticos [An Introduction to Exploratory Data Analysis and Statistical Methods]

Institute of Mathematics and Statistics, University of São Paulo

São Paulo

Teaching Assistant, Brazil

Jul–Nov 2012

Noções de Estatística [Basic Statistics]

Institute of Mathematics and Statistics, University of São Paulo

São Paulo

Teaching Assistant, Brazil

Jul–Nov 2011

Noções de Estatística [Basic Statistics]

Institute of Mathematics and Statistics, University of São Paulo

São Paulo

Teaching Assistant, Brazil

Jul–Nov 2010

Noções de Estatística [Basic Statistics]

Professional Experience

Itaú Asset Management, Itaú-Unibanco Bank

São Paulo

Senior Quantitative Research Analyst, Brazil

Jan–Dec 2016

Programming Languages

C, Excel, HTML, Latex, Matlab, Ox, R and VBA

Conferences and Workshops

2024

August 4 - 9

Fortaleza

25o. Simpósio Nacional de Probabilidade e Estatística, Brazil

CT: Improved inference for MCP-Mod approach using time-to-event endpoints with small sample sizes.

2023

August 23 - 25

Belo Horizonte

II Reunião Mineira de Matemática, Brazil

CT: Improved inference for MCP-Mod approach using time-to-event endpoints with small sample sizes.

2022

July 31 - August 5

Gramado

24o. Simpósio Nacional de Probabilidade e Estatística, Brazil

CT: A class of categorization methods for credit scoring models.

2018

September 23 - 28

São Pedro

23o. Simpósio Nacional de Probabilidade e Estatística, Brazil

CT: Median bias reduction of maximum likelihood estimates in the Kumaraswamy distribution.

2016

May 29 - June 1

St. Catharines

44th Annual Meeting of the Statistical Society of Canada, Canada

CT: A Wald-type test in proper dispersion models.

2015	
March 2 - 5	Campinas
<i>XIV Brazilian School of Regression Models, Brazil</i>	
P: Wald test in finite samples.	
February 9 - 11	São Carlos
<i>3rd Workshop on Probabilistic and Statistical Methods, Brazil</i>	
2014	
July 20 - 25	Natal
<i>XXI Simpósio Nacional de Probabilidade e Estatística, Brazil</i>	
CT: An improved Wald test in dispersion models.	
2013	
August 3 - 8	Montréal
<i>2013 Joint Statistical Meetings, Canada</i>	
P: Skewness of the maximum likelihood estimators in beta regression model.	
February 24 - 27	São Sebastião
<i>13a. Escola de Modelos de Regressão, Brazil</i>	
P: Coeficiente de assimetria de ordem $n^{-1/2}$ da distribuição dos estimadores de máxima verossimilhança dos parâmetros do modelo de regressão beta heterocedástico [<i>Skewness coefficient of order $n^{-1/2}$ of the distribution of the maximum likelihood estimators of the parameters in heteroskedastic beta regression model</i>].	
2012	
July 30 - August 3	João Pessoa
<i>20o. Simpósio Nacional de Probabilidade e Estatística, Brazil</i>	
CT: Assimetria assintótica no modelo de regressão beta [<i>Asymptotic skewness in the beta regression model</i>].	
2011	
March 13 - 16	Fortaleza
<i>XII Escola de Modelos de Regressão, Brazil</i>	
P: Matriz de covariâncias de segunda ordem do estimador de máxima verossimilhança corrigido pelo viés em modelos não lineares da família exponencial [<i>Second-order covariance matrix of the bias-corrected maximum likelihood estimator in exponential family nonlinear models</i>].	
2010	
July 26 - 30	São Pedro
<i>19o. Simpósio Nacional de Probabilidade e Estatística, Brazil</i>	
P: Matriz de covariâncias de segunda ordem do estimador de máxima verossimilhança corrigido pelo viés em modelos não lineares da família exponencial [<i>Second-order covariance matrix of the bias-corrected maximum likelihood estimator in exponential family nonlinear models</i>].	
2008	
October 28 - 31	Fortaleza
<i>XXVII Encontro Universitário de Iniciação Científica, Brazil</i>	
P: Comparação entre testes de independência [<i>Comparison of independence tests</i>].	
2007	
June 14 - 15	Fortaleza
<i>XXVI Encontro Universitário de Iniciação Científica, Brazil</i>	

CT: Um estudo sobre indicadores sócio-econômicos dos municípios do Estado do Ceará via análise espacial e sistemas de informações geográficas [A study on socio-economic indicators of the municipalities of the State of Ceará via spatial analysis and geographic information systems].

2006

June 22 - 23

Fortaleza

XXV Encontro Universitário de Iniciação Científica, Brazil

CT: Um estudo sobre indicadores sócio-econômicos dos municípios do Estado do Ceará via análise espacial e sistemas de informações geográficas [A study on socio-economic indicators of the municipalities of the State of Ceará via spatial analysis and geographic information systems].

Remark:: CT means Contributed Talk and P means Poster Presentation

Awards & Scholarships

Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Scholarships of CAPES, Brazil</i>	2017
Postdoctoral scholarship of the Coordenação de Aperfeiçoamento de Pessoal de Nível Superior	
Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Scholarships of CNPq, Brazil</i>	2012–2015
PhD scholarship of the Conselho Nacional de Desenvolvimento Científico e Tecnológico	
Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Scholarships of CAPES, Brazil</i>	2011–2012
PhD scholarship of the Coordenação de Aperfeiçoamento de Pessoal de Nível Superior	
Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Scholarships of CNPq, Brazil</i>	2009–2011
Master scholarship of the Conselho Nacional de Desenvolvimento Científico e Tecnológico	
Science Center, Federal University of Ceará	Fortaleza
<i>Scholarships of CNPq, Brazil</i>	2007–2008
Undergraduate research scholarship of the Conselho Nacional de Desenvolvimento Científico e Tecnológico	
Science Center, Federal University of Ceará	Fortaleza
<i>Scholarships of PIBIC, Brazil</i>	2006–2007
Undergraduate research scholarship of the Programa Institucional de Bolsas de Iniciação Científica	
Science Center, Federal University of Ceará	Fortaleza
<i>Scholarships of PIBIC, Brazil</i>	2006
Undergraduate research scholarship of the Programa Institucional de Bolsas de Iniciação Científica	

Member of Committees

Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Member of the CCP - Statistics, Brazil</i>	2013
Graduate Representative in the Coordinating Committee Program - Statistics	
Institute of Mathematics and Statistics, University of São Paulo	São Paulo
<i>Member of the MAE Council, Brazil</i>	2010
Graduate Representative in the Council of the Department of Statistics
